

SIBO DC-DC Converter with Current Mode Control Circuit

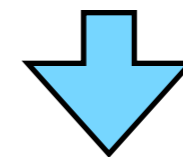

Takashi Okada, Nobukazu Takai, Hiroyuki Iwase, Yasunori Kobori, Haruo Kobayashi,
Takahiro Odaguchi[†], Isao Nakanishi[†], Kenji Nemoto[†], Jun-ichi Matsuda[†]
Graduate School of Engineering, Gunma University, JAPAN [†]AKM, JAPAN

Single-inductor bipolar output
(SIBO) can output two voltage
using **one inductance**

Current mode control shows
response characteristic superior
than other control mode

Research Goal

Design a high-speed response
SIBO DC-DC Converter
