Fee: JPY1,500 / person

Of this, assisting JPY500 / person

Originality / Uniqueness of the event

This event is part of the consideration that participants who can't drink alcohol due to religious reasons or transportation problems can enjoy the conference.

In addition, contact with nature promotes new discoveries for each participant from a different point of view than the specialized field.

Make a enjoy and companionship

Detailed description of the event

It is desirable that the area where this event takes place is an area where fruit industry is thriving near the conference site

Venue

- Perform fruit picking at farms near

Participants

- Group activities are recommended.
- A veteran researcher can also add to groups

It is expected that a conversation developed from different from the usual standing style

Better if the group can be changed in a fixed time. The group members should be changed in a fixed time to interact with a lot of researchers as possible.

These exchanges and contact with the world different from the usual research field can provide an opportunity to gain new ideas.
