Centennial Celebration of The National Chang Kung University Banyan Tree(1903-2003)

Banyan trees typically cast wide moats over extensive domains, their adventurous, arcane roots clutching far beneath the realm of men and women. The National Cheng Kung University's venerable centenarian proves no exception to the visible rule, but its soul, its ch i, presages much more about what the human spirit can achieve and endure.

In 1923.cor Banyan was resettled in Taiwan soil by the then Grown Prince of Japan. By 1966, our Banyan new graced the Cheng Kung community meadow, and later its bamboo-blue lake - a living poem nurtured by fertile, vigorous roots underground.

For generations this gracious host has beckoned birds and clouds as it has, with its own unassuming demeanor, scholars and students, wedding Nature to Art. It continues to embody the highest standards of educative excellence and commitment, while ministering as the beloved companion of NCKU alumni and alumnae and Tainan citizenry.

On this centennial anniversary, O great Banyan, we celebrate you as you continue to share the unsung tongue of our noblest dreams,your own fluent calligraphy begun beneath a clay-white moon, beneath the script of invisible waters.
